Study on "Challenge of land abandonment after 2020 and options for mitigating measures"

The political monitoring of the Belgian National Focal Point to the Convention on Biological Diversity carries out research on biodiversity and ecosystem-related topics at the level of the different Belgian legislative institutions: the Chamber, the Senate, the Walloon parliament, the parliament of the Walloon-Brussels federation, the Flemish parliament, the Brussels parliament and the European parliament. The monitoring aims to give a non-exhaustive overview of the different ongoing policy developments related to biodiversity and ecosystem services in these legislative institutions.
